

The AI-Enhanced Classroom: Redefining Teaching And Learning

Overview

This course is designed to provide an overview of the use of artificial intelligence (AI) in education, exploring the benefits and challenges that AI presents for teachers and students. The course is divided into eight modules, with each module focusing on a particular aspect of AI in education.

This course is accredited through Southern New Hampshire University. You can receive 3 graduate credits if you enroll in the for-credit option

→ Course Objectives

This course is designed to be an introduction to teaching and learning with AI. By the end of the course, participants will be prepared to use AI tools in their classroom and admin tasks. They will also be able to critically reflect on the implications of AI in education.

→ Course Structure

This is an 8-module course. Each module contains 2-3 lessons, an assignment, and an academic reading. The course concludes with a capstone project that you will be able to use in your classes.

→ Key details

- Asynchronous course
- Complete at your own pace
- Price without credit: \$149.99
- Price with credit: \$549.99
